

SEATTLE STUDY CLUB OF CENTRAL NEW ENGLAND CONTINUING EDUCATION PROGRAM

2026-2027

Global Network & Local Collaboration Comprehensive Dentistry

Seattle Study Club offers an environment for personal, professional and practice growth that results in real behavior change. Our core values are a full-team approach to comprehensive diagnosis and treatment planning, that elevates the quality of patient care and learning through peer-to-peer engagement. Our curated and customized curriculum brings global dentistry to the heart of your practice.

Seattle Study Club is dedicated to transforming the way dentistry is practiced by cultivating a culture of excellence, collaboration, and continuous growth:

Excellence in Patient Care

- Interdisciplinary treatment planning as the foundation of exceptional, comprehensive dentistry.

Lifelong Learning

- Peer-driven, continuous education as the most effective way to expand knowledge of techniques and technologies.

Clinical Mastery

- The pursuit of one's full potential as a well-rounded clinician, blending the science and art of dentistry to provide the highest level of care.

Passion for the Profession

- A deep enthusiasm for dentistry and an appreciation of its profound impact on patients' lives.

Community & Connection

- A strong network of camaraderie and support, fostering both professional and personal growth.

Global Access to Expertise

- A university without walls, offering direct access to leading dental authorities through digital and in-person experiences.

Club Calendar

Quickly check your **club calendar**, RSVP for the next meeting, and read meeting materials so you'll be ready to dive in.

National Events

Explore renowned speakers, trusted partners, exciting themes, and stunning locations for our **national events**—like the annual Symposium—right on the app.

Special Offers

Take advantage of **special offers** from our industry-leading partners—offers that can easily save you more than the annual cost of membership.

Case Studies + Lectures

Explore video-based **case studies + lectures** delivered directly to you every month.

Important News

Get **important news** right on your phone, from treatment planning cases to articles about practice management, health and wellness, and more—all from the Seattle Study Club Journal.

Track + Report

Track + report your continuing education credits with ease—anytime, anywhere.

It's all in the App!

Discover Your Memory Power

Your profession demands that you remember a wealth of knowledge including client or patient details, numbers, market data, lists, presentations and most importantly, NAMES! A simple slip of the mind can result in thousands of lost dollars in production and credibility. This unique program is a memory program that expands your ability to recall information like names, lists, numbers, presentations, key client information, foreign languages, vocabulary, equations, information from books and meetings and much more by teaching you how to use the natural language of your memory. The Memory Training program is perfect for groups looking for a breath of fresh air when it comes to training. This program is fun, inspirational, and most of all, ANYONE can do it successfully. Participants see immediate results that they put in to use right after the program.

ROBB ZBIERSKI

LECTURE UP TO 2 HRS SELF-
IMPROVEMENT | AGD SUBJECT
CODE 770

Event Details

Wednesday, September 9, 2026
6-9 PM

Location: Marlborough Country Club

Upon completion of this session, attendees should be able to:

- Implement their ability to recall information with a 300% increase in success.
- Recall a list of at least 50 unrelated items forwards, backwards and in and out of order.
- Develop the ability to deliver presentations without notes.
- Identify 20 new people and remember all of their names within an hour.

Mr. Zbierski does not have any affiliations to disclose.

Responsible Opioid Prescribing

Dentists play a pivotal role in shaping the response to the opioid crisis. This essential program equips dental professionals with the knowledge, strategies, and communication tools to prescribe responsibly, educate patients, and implement effective practice policies that reduce risk and promote safer pain management. Through a blend of real-world data, evidence-based guidelines, and practical approaches, participants will gain a deeper understanding of the opioid epidemic and the unique responsibility of dental practices in addressing it. Walk away with the confidence to make informed prescribing decisions, educate your patients on risks and safe practices, and implement systems within your office to help prevent misuse. *(This program meets most state DEA requirements for opioid education.)*

PRIVEER D. SHARMA, DMD

LECTURE UPTO 2 HRS

OPIOID, CONTROLLED SUBSTANCES AND PAIN
MANAGEMENT | AGD SUBJECT CODE 346

Event Details

Wednesday, October 21, 2026
6-9 PM

Location: Marlborough Country Club

Upon completion of this session, attendees should be able to:

- Identify the role dental professionals play in the opioid crisis by understanding current trends, risks, and evidence-based prescribing practices.
- Apply practical strategies within the dental practice to promote safe prescribing, educate patients on opioid risks, and implement policies that help prevent misuse.

Mr. Sharma does not have any affiliations to disclose.

Advancements and Hands-On Training in Anterior Resin Composite Restorations

This hands-on program offers a comprehensive approach to creating Class IV restorations and direct anterior resin composite veneers. Participants will master key techniques such as shade selection, beveling, layering, finishing, and polishing, while gaining practical experience in achieving ideal contour and proximal contacts. The program also covers the application of CAD (Computer-Aided Design) in planning and designing anterior restorations, and explores the use of injectable composites for enhanced precision. With a focus on minimal invasiveness, you will learn when to apply single-shade versus multi-shade resin composites for optimal esthetic outcomes.

HIROMI SAISHO, DDS, CDT, MS

LECTURE UP TO 8 HRS

OPERATIVE (RESTORATIVE) DENTISTRY | AGD

SUBJECT CODE 250

Event Details

Friday, November 20, 2026

9-1 PM

Location: Bedi Dental Group Training Center Sterling, MA

Upon completion of this session, attendees should be able to:

- Master the use of a lingual matrix technique to achieve ideal contour and proximal contacts for Class IV restorations.
- Create direct anterior resin composite restorations using injectable composites for superior esthetic outcomes.

Dr. Saisho receives financial and/or product support from Solventum.

Extreme Team–Are You Helping Or Hurting

This engaging program speaks directly to the entire dental team, addressing the real-life dynamics that play out in the practice each day, including the conversations and challenges we don't always name. Drawing from relatable experiences, Dr. Praetzel highlights common team obstacles, shared successes, and the mindset shifts that create a stronger, more unified practice culture. This is an excellent session for the full staff.

**DARON PRAETZEL, DMD, FAACS,
COL, USFAR**

LECTURE UPTO 4 HRS
PRACTICE MANAGEMENT AND HUMAN RELATIONS |
AGD SUBJECT CODE 550

Event Details

Friday, December 11, 2026
9–1 PM

Location: Marlborough Country Club

Upon completion of this session, attendees should be able to:

- Recognize how everyday interactions in the office shape thoughts, attitudes, and team culture.
- Identify how they positively impact patients' lives each day.
- Identify how every team member contributes to the success of the practice, regardless of tenure.
- Dr Praetzel does not have any affiliations to disclose.

Mr. Praetzel does not have any affiliations to disclose.

Big Problems, Smart Solutions: How to Use Digital Platforms & My Lab Partners to Change My Game & Regain a Lost Smile

This program teaches dental professionals to design patient-centered treatment plans, emphasizing effective communication, co-diagnosis, and patient motivation. Learn protocols for optimal restorative procedures, focusing on centric relation, tooth preparation, impressions, occlusion, and final delivery. The program also highlights the importance of doctor-lab communication for successful restorations, understanding occlusion principles, and tooth design considerations.

LOVEDEEP RANDHAWA

LECTURE UP TO 2 HOURS

ORTHODONTICS | AGD SUBJECT CODE 370

Event Details

Wednesday, January 20, 2027

6-9 PM

Location: Marlborough Country Club

Upon completion of this session, attendees should be able to:

- Design a patient-centered treatment plan that integrates effective patient communication, co-diagnosis, and professional communication strategies.
- Analyze the importance of patient motivation in achieving successful treatment outcomes.
- Create a protocol for achieving optimal outcomes in restorative procedures, considering factors such as centric relation, tooth preparation, impressions, occlusion, and final delivery.
- Determine the role of the doctor-lab conversation around occlusion principles and tooth design considerations in the context of the final delivery of restorations.

Comprehensive Treatment Planning Session

These treatment planning sessions are designed to generate a group round table discussion. During the day, several cases will be presented and discussed in an interactive manner. Participants will be provided with patients' following information: introduction and background, medical and dental history, extraoral findings, intraoral clinical findings (dental, periodontal, and occlusal), radiographic findings, diagnosis, and summary of concerns. These will be conversed in groups in an interactive environment while discussing treatment objectives, treatment planning considerations, and proposed treatment plans. Each group will then present its proposed treatments. The actual treatment of the case will be presented as well as "in hindsight concerns" and treatment alternatives.

ARIEL J. RAIGRODSKI, DMD, MS, FACP, FICD

LECTURE UPTO 4 HRS

MULTI DISCIPLINARY TOPICS | AGD SUBJECT CODE 149

Event Details

Friday, February 12, 2027

9-1 PM

Location: Marlborough Country Club

Upon completion of this session, attendees should be able to:

- Discuss and identify the role of comprehensive data collection while addressing all relevant dental specialties.
- Define customized treatment objectives and multiple treatment options for different clinical scenarios.
- Identify the advantages of employing the interdisciplinary team for planning and executing successful patient care.

Dr Raigrodski does not have any affiliations to disclose

Simplifying the Delivery of Full Arch Fixed Restorations

Whether you are new to digital dentistry or an experienced practitioner, this interactive program provides a comprehensive look at full-arch implant workflows from planning to delivery. Dr Klein will guide attendees through the key steps to achieving predictable, efficient, and patient-centered outcomes in full-arch implant cases. This program explores denture conversion, surgical and restorative planning, and strategies for improving case acceptance, with a focus on utilizing advanced digital workflows to streamline the process. Participants will gain actionable insights into diagnostic imaging, stackable guide protocols, digital impressions, and prosthetic design, all with an emphasis on improving efficiency, accuracy, and patient satisfaction.

MICHAEL KLEIN, DDS

LECTURE UP TO 3 HRS OR 6 HRS
FIXED PROSTHODONTICS, AGD SUBJECT
CODE 610

Event Details

Friday, March 12, 2027
9-1 PM

Location: Marlborough Country Club

Upon completion of this session, attendees should be able to:

- Apply digital planning workflows to improve precision and predictability in fullarch implant treatment.
- Utilize efficient denture conversion and restorative protocols to streamline chairtime and enhance patient acceptance of treatment.

Dr Klein receives product and/or financial support from The Aurum Group.

Leadership & Business Strategies to Build A High-Performance Dental Practice

Building a practice vision is accomplished with defining and communicating to others your vision, setting standards, and measuring them. Growth comes with delegation of duties and leveraging yourself and others to provide great care and service to your patients. Learn how to hold yourself and your team accountable to your practice and to your patient base in delivering exceptional care using the technology and people that surround you.

SUNNY GIL, DDS

LECTURE UP TO 2 HOURS
PRACTICE MANAGEMENT & HUMAN
RELATIONS | AGD SUBJECT CODE 550

Event Details

Wednesday, April 14, 2027
6-9 PM

Location: Marlborough Country Club

Upon completion of this session, attendees should be able to:

- Explain the importance of setting a vision, mission and goals for personal and professional development and growth.
- Explore the relationship between clinical leadership, clinical standards, clinical expectations, and profitability.
- Review how to design a comprehensive plan for creating growth opportunities through delegation, processes, meeting standards and measuring performance.

What Really Matters in Life

Do you worry that you will live a life that doesn't matter? That you will have regrets about all that you could have done... but didn't? This presentation speaks to these fears and will transform you into a person who takes on new challenges, makes the world a better place and leaves you with few, if any regrets. By focusing on lessons learned from life experiences, also known as the school of hard knocks, research from top scientists, and the wisdom shared with successful people, Dr Koka will show you how to live a fulfilling life.

**SREENIVAS KOKA, DDS, MS,
PHD, MBA, MAS**

LECTURE UPTO 2-5 HRS
SELF IMPROVEMENT | AGD SUBJECT CODE 770

Event Details

Wednesday, May 12, 2027
6-9 PM

Upon completion of this session, attendees should be able to:

- Identify what really matters in life.
- Define the path to as few life regrets as possible.
- Identify how to live a life of true meaning.

Dr Koka receives product and financial support from Nobel Biocare, ITI (United Kingdom), Neoss.
